the leopard 1 family became the first fully german developed series of armoured combat vehicles to be built since the end of the second world war using the german built version of the british l7 105mm gun the leopard focused on firepower and with its impressive cross country performance it was unmatched by most other tank designs of the era

challenger 2 cr2 is the british army s main battle tank cr2 is based on the challenger 1 tank which served with distinction on operations in the gulf war and the balkans although a logical development of challenger 1 cr2 is greatly superior it is protected by second generation chobham armour and features a new digital fire control system that includes a panoramic commander s sight a laser range finder and a new version of the thermal observation and gunnery sight togs ii the turret mounts the high pressure l30 120mm gun that fires conventional apds fs hesh smoke and depleted uranium projectiles with great accuracy

a comprehensive and detailed illustrated examination of the development and combat performance of us battle tanks from the end of world war ii through to the present day in this the second of two highly illustrated volumes telling the full history of the design development and operational use of us army and us marine corps battle tanks steven j zaloga takes the story from the end of world war ii through the us soviet rivalry of the cold war period right up to the latest developments in american armored technology us battle tanks 1946 2025 draws and expands on material published in osprey s new vanguard and duel series to explain how the us army attempted to come to grips with the challenges of the nuclear battlefield and examines the introduction of new tank designs such as the famous patton tank series as well as short lived attempts to develop more radical tanks such as the t95 it covers the overly ambitious and failed mbt 70 tank program and the more austere m1 abrams that followed a tank that proved to be the best us tank design of the post world war ii period and one that is still in service today published in association with the ausa book program offering quality books about us army heritage military theory and policy and security in the modern world

the chieftain was the british army s main battle tank for twenty years first entering service with the 11th hussars in 1966 one of the first true main battle tanks it was designed to replace both medium centurion and heavy conqueror tanks in front line service and provided the backbone of the british army s heavy armour at the height of the cold war it incorporated a lot of revolutionary design features although some did not work as well as expected for example in order to reduce height the driver lay in a reclining position and changed gear with his foot the l11 120mm gun used a self combusting bagged charge instead of a brass cartridge case the gun proved to be highly successful and the tank was powered by a multi fuel engine the chieftain was continually upgraded during its service life later marks were fitted with

a laser rangefinder a computerised fire control system ifcs thermal sights togs and additional compound armour on the front of the turret and around the driver s hatch so called stillbrew armour the l60 engine was continually modified and improved to increase its output and reliability the end result of all these changes was a formidable afv the chieftain hull was also used for a range of specialised afvs including armoured recovery vehicles arv and arrv bridge layers avlb and combat engineering tanks avre a total of more than 2 200 chieftains of all types were manufactured by the royal ordnance factories and vickers ltd some 900 of these served with the british army while the remaining 1 300 tanks were exported to iran jordan kuwait and the oman chieftains saw their share of combat with the iranian army in the 1980s when they engaged iraqi tanks during the iran iraq war while kuwaiti chieftains fought the iraqi army during the invasion of kuwait in 1990 chieftain gun tanks were withdrawn from front line service with the british army during the late 1980s and early 1990s but chieftain recovery and combat engineering vehicles served with the british army during the operations to liberate kuwait in 1991 desert storm

the seventh issue of tanker techniques magazine the best modelling magazine focused on painting and weathering techniques urban warfare has left its print on the development of new tanks and armoured vehicles this issue of tanker is dedicated to creating such an environment for your model we show how to make a street scene destroyed and bombed out buildings etc this time the focus is more on how to present your model in such environments rather than on the vehicles themselves creating such scenes requires some planning and thinking but it s not as hard as it seems already here the last issue of tanker this time focus in conflicts in villages and cities in this issue we can feel the battle and the sensations of decadence in cities destroyed by the war we will see how to recreate these environments buildings and vehicles

when it entered service with the british army in 1983 the 62 tonne challenger 1 was the first of a new generation of main battle tanks originally intended for use by the imperial iranian army orders for the tank were cancelled when the shah was deposed after the islamic revolution in 1979 and the design was accepted by the british ministry of defence as a replacement for the chieftain

the m4 sherman can be said to be the tank that won world war ii with almost fifty thousand built during the war it was america s primary armored fighting vehicle during the war thousands of these found their way into the inventories of the british army and soviet red army as well as other allies this manual covers the development of the sherman the vast array of variants and the use of the hull and chassis for other purposes also covered is production anatomy paintwork and markings information on the m4 in action takes the reader from combat against rommel s afrika korps to italy the invasion at normandy and the race across france and it wouldn t be a haynes manual without practical information about owning restoring and maintaining a sherman tank whether you are an armchair general patton or a serious collector tips on buying a tank special tools handling heavy components and recommended fluids and lubricants will prove invaluable

the magazine of mobile warfare

the nervous geopolitical tension between east and west the cold war emerged before the end of the second world war and lasted until 1991 with the collapse of the soviet union the british army of the rhine was born in 1945 out of the british liberation army at the close of the war as the military government of the british zone of occupied germany as the soviet threat increased so baor became less of an occupational army and assumed the role of defender of western europe and as a major contributor to nato after 1949 this book traces and examines the changing role of baor from 1945 to its demise in the 1993 options for change defence cuts it looks at the part it played in the defence of west germany its effectiveness as a cold war deterrent the garrisons and capabilities logistics and infrastructure its arms and armour the nuclear option and the lives of the thousands of families living on the front line
