challenging the standard narrative of interwar international history this account establishes the causal relationship between the global political and economic crises of the period and offers a radically new look at the role of ideology racism and the leading liberal powers in the events between the first and second world wars

what is fascism is it an anomaly in the history of modern europe or its culmination in anti colonialism and the crises of interwar fascism michael ortiz makes the case that fascism should be understood in part as an imperial phenomenon he contends that the age of appeasement 1935 1939 was not a titanic clash between rival socio political systems fascism and democracy but rather an imperial contest between satisfied and unsatisfied

empires historians have long debated the extent to which western imperialisms served as ideological and intellectual precursors to european fascisms to date this scholarship has largely employed an inside out methodology that examines the imperial discourses that pushed fascist regimes outward into africa asia and the americas while effective such approaches tend to ignore the ways in which these places and their inhabitants understood european fascisms addressing this imbalance anti colonialism adopts an outside in approach that analyses fascist expansion from the perspective of indian anti colonialists such as jawaharlal nehru subhas bose and mohandas gandhi seen from india the crises of interwar fascism the second italo ethiopian war spanish civil war second sino japanese war munich agreement and the outbreak of the second world war were yet another eruption of imperial expansion analogous although not identical to the scramble for africa and the treaty of versailles whether fascist democratic or imperialist europe s great powers collectively negotiated the fate of smaller nations

the great depression of the years between the world wars is widely held to have led to the collapse of democracy in many countries this study of greece which recovered quickly from the economic crisis argues that there is no simple correlation between economic and political crisis

this book reassesses the contribution to international thought of some of the most important thinkers of the inter war period it takes as its starting point e h carr s famous critique which more than any other work established the reputation of the period as the utopian or idealist phase of international relations theorizing this characterization of inter war thought is scrutinized through ten detailed studies of such writers as norman angell j a hobson j m keynes david mitrany and alfred zimmern the studies demonstrate the diversity of perspectives within idealism and call into question the descriptive and analytical value of the entire notion it is concluded that idealism is an overly general term useful for scoring debating points rather than providing a helpful category for analysis

in the convulsive environment that followed world war i and the russian revolution the issues of policing and public order were of primary importance to the various governments of interwar europe the book features original research on 10 different countries and will be vitally useful for students and academics of 20th century europe
